

RUN TRUCK.
MAKE PROFIT.
REPEAT.

International® 9000i Series

PROOF THAT YOU
DON'T HAVE TO BE
ON ROUTE 66
TO GET YOUR KICKS.

International® 9000 *i* Series trucks provide quite a thrill for owners, drivers and maintainers. Because they're built to deliver proven reliability and maximum uptime.

One way is through outstanding aerodynamics. With features like a dramatically sloped hood, swept-back and curved windshield, and a patented "pod" roof fairing, the International® 9200 *i* and 9400 *i* work in harmony with the wind for optimum fuel efficiency.

For drivers, the bold and stylish appearance alone is cause for excitement. So are the excellent visibility and unmatched ride, responsiveness, comfort and convenience. Plus, service technicians get a kick out of the easy serviceability. It also helps to have the industry's most comprehensive package of service and support with you at every mile.

With International 9000 *i* Series trucks, you're always on the most direct route to profitability.

The International 9200*i* features an advanced aero design for outstanding fuel economy. Its 112" (284 cm) BBC and set-back front axle give you excellent maneuverability and visibility, less weight, the ability to haul longer trailers, and bigger payloads.

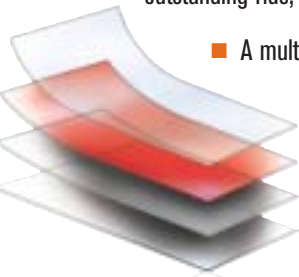

THE TRUCKING BUSINESS IS NO JOY RIDE. OR IS IT?

ENRICHING THE OWNER.

- The sculpted hood, curved and sloped windshield, roof air fairing with cab side extenders, aero sunshade and mirrors, under-bumper valance panel and stylized chassis skirts deliver maximum aerodynamics and fuel efficiency. (International® 9200i and 9400i.)
- Optimized components ensure maximum reliability and uptime.
- The International® 9000i Series cab and heat-treated alloy steel frame rails are designed to deliver longer life, less weight and fewer repairs.
- Laser-aligned assembly ensures unmatched chassis straightness for outstanding ride, less tire wear and longer drivetrain life.

- A multi-layer finish features a high-concentration color coat sealed with a clear urethane outer coat – for incomparably deep, rich color that looks factory-new for years.

EXCITING THE DRIVER.

- The International® Ride-Optimized Suspension (IROS) system delivers better stability and handling, less road noise and a smoother ride.
- Standard wide-track axles with 35" (89 cm) spring centers improve wheel cut by 10% for better maneuverability, a tight turning radius, and improved ride and handling.

- An ultra-rigid cab floor, cab air suspension and tuned shock absorbers ensure the ride is smooth even when the road isn't.
- Pinpoint steering geometry and parabolic taperleaf front suspension provide superior vehicle control and outstanding ride and handling.
- Well-placed steps and V-shaped door handles offer easy entry/egress.

DELIGHTING THE MAINTAINER.

- Easy access to air cleaner, windshield washer reservoir, oil, battery and other items make routine maintenance quick and easy.
- All air lines are color-coded for easier troubleshooting. Quality Connect fittings provide greater resistance to air leaks.

- The HVAC system with electronic controls simplifies maintenance by eliminating the need for cable service adjustments and will automatically cycle the A/C compressor during winter months.
- A self-diagnostic instrument cluster test is activated when the ignition key is turned on, to insure that all electronic gauge circuits are working properly.

International® 9900*ix*

The International 9900*ix* is a classic premium conventional with a distinctive long-nose design, an abundance of brilliant chrome, 130" (330 cm) BBC and up to 565 hp.

A HIGHER STANDARD OF LIVING FOR THOSE WHO LIVE ON THE ROAD.

- The Owens Corning insulation package helps maintain the inside temperature you desire while making the cab exceptionally quiet.
- The fully curved and sloped windshield provides a commanding view of the road.
- Outstanding headroom, belly room and leg room ensure maximum driver and passenger comfort.
- Large door windows and passenger-side look-down mirror provide an encompassing view of surroundings.
- An ergonomic burl walnut instrument and wing panel make gauges and controls easy to see and reach.
- The best-in-class HVAC system increases airflow and efficiency. Electronic controls and lighted rotary knobs make it easier to control temperature, air volume and air distribution.
- International® sleepers measure 96" (244 cm) across and provide incomparable roominess, storage space, comfort and convenience. Choices include the 51" (130 cm) Lo-Roof, 51" (130 cm) Hi-Rise, 72" (183 cm) Hi-Rise and 72" (183 cm) Sky-Rise® sleepers.
- Top-quality seats with dual armrests standard with Premium and Eagle® trim.
- Controls for power door locks and windows are conveniently located on the door panel, along with an oversized storage pocket.
- The overhead storage area features three storage pockets and an optional outside temperature gauge and compass.
- Premium trim, standard. Optional Eagle trim includes ivory-faced gauges, Eagle steering wheel and burl walnut accents.
- All interiors feature a tan base color with optional accent colors: dark tan, blue and burgundy.

**FIND OUT HOW
PERFORMANCE PAYS.**

The International® 9000i Series brings more performance and profitability to your operation – today and years down the road. We'll even prove it to you in dollars and cents.
